Mandatory Actuarial Document Endorsement
COMMODITY EXCHANGE ENDORSEMENT - WHEAT
(This is a Continuous Endorsement)

If a conflict exists among the policy provisions, the order of priority is as follows: (1) the Special Provisions; (2) this Commodity Exchange Endorsement; (3) the Crop Provisions; and (4) the Basic Provisions, with (1) controlling (2), etc.

How this endorsement affects your coverage:

- (I) This endorsement is attached to and made a part of your Crop Revenue Coverage (CRC) Wheat crop policy provisions and actuarial documents, subject to the terms and conditions described herein.
- (II) This endorsement specifies how, where, and when commodity prices for your CRC Wheat policy are determined.
- (III) In lieu of section 4(c) of the Basic Provisions, you may only select 100 percent of Base Price and Harvest Price.
- (IV) This endorsement defines the **Average Daily Settlement Price**, as used in the Base Price and Harvest Price, as - The average calculated by totaling all the daily settlement prices for the contract specified in the applicable Base Price or Harvest Price definition (established on full active trading days), during the month specified in the applicable Base Price or Harvest Price definition, and dividing that sum by the total number of days included in the total. The average must include at least fifteen (15) days and each day included in the average must be a full active trading day for the contract specified in the applicable Base Price or Harvest Price definition. A full active trading day is any day on which there are fifty (50) or more open interest contracts of the contract specified in the Base Price or Harvest Price definition. If there are less than fifteen (15) full active trading days for the contract specified in the applicable Base Price or Harvest Price definition, during the month specified in the applicable Base Price or Harvest Price definition, then additional daily settlement prices, established on full active trading days, for the contract immediately prior to the contract specified in the applicable Base Price or Harvest Price definition, during the month specified in the applicable Base Price or Harvest Price definition, will be used until there are fifteen (15) prices from fifteen (15) full active trading days included in the average.
- (V) This endorsement defines the Base Price and Harvest Price as shown in Section 1 of the Crop Revenue Coverage Basic Provisions by wheat type and state as follows:
