Updated Fact Sheets for Fall Crops in Minnesota and Wisconsin

SAINT PAUL, Minn., Nov. 20, 2014 — The USDA's Risk Management Agency (RMA) announced updated crop fact sheets with a November 20 sales closing date including apples, cranberries, and the tart cherry pilot in Minnesota and Wisconsin. Also, available is the area risk protection insurance forage production fact sheet for Minnesota and Wisconsin with a November 30 sales closing date. To view the facts sheets, visit www.rma.usda.gov/aboutrma/fields/mn_rso/.

The crop fact sheets give a summary of the insured crop, causes of loss, insurance period, reporting requirements, important dates, coverage level, premium subsidies, prices, unit division, insurance plans, a loss example, and contact information. This can be a quick and useful tool for producers to gain knowledge about an insurable crop.

Crop insurance is sold and delivered solely through private crop insurance agents. Contact a local crop insurance agent for more information about the program. A list of crop insurance agents is available at all USDA Service Centers or on the RMA website at www.rma.usda.gov/tools/agents/.
