

Commodity	Irrigation Practice	County	StateCode	CountyCode	Data Source	Production Area
(0021) Cotton	(002) Irrigated	Butler, MO	29	023	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Butler-MO, Stoddard-MO
(0021) Cotton	(002) Irrigated	Dunklin, MO	29	069	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Dunklin-MO
(0021) Cotton	(002) Irrigated	Mississippi, MO	29	133	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Mississippi-MO, New Madrid-MO
(0021) Cotton	(002) Irrigated	New Madrid, MO	29	143	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: New Madrid-MO
(0021) Cotton	(002) Irrigated	Pemiscot, MO	29	155	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Pemiscot-MO
(0021) Cotton	(002) Irrigated	Scott, MO	29	201	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Scott-MO, Stoddard-MO
(0021) Cotton	(002) Irrigated	Stoddard, MO	29	207	The data source for the area yield used for this offer is RMA. The area yield is calculated by dividing the RMA estimate of irrigated upland cotton production by the RMA estimate of irrigated upland cotton planted acreage for the offer's defined production area. RMA estimates are based on yield and acreage data reported by crop insurance program participants.	This offer's production area includes the following counties: Stoddard-MO
